PROJECTS

Book Store Website

Role: Co-Team Leader

Duration: Completed in 24 days (before 30-day submission deadline)

Developed a responsive bookstore front-end website using HTML, CSS, Bootstrap, and JavaScript. Worked on website design, layout structure, and interactive user interface features while coordinating with team members during development.

Technologies: HTML, CSS, Bootstrap, JavaScript

Vaccination Appointment Website

Role: Team Leader

Duration: Completed in 10 days (before 30-day submission deadline)

Developed a full-stack vaccination appointment management website using HTML, CSS, Bootstrap, JavaScript, PHP, and MySQL. Led the team, managed project tasks, and worked on both front-end and back-end functionalities including appointment handling and database integration.

Technologies: HTML, CSS, Bootstrap, JavaScript, PHP, MySQL

Music Application Website

Role: Team Member

Duration: Completed in 29 days (before 30-day submission deadline)

Contributed to the development of a full-stack music application using HTML, CSS, Bootstrap, JavaScript, and .NET Core MVC. Assisted in front-end design, functionality implementation, and teamwork collaboration throughout the project lifecycle.

Technologies: HTML, CSS, Bootstrap, JavaScript, .NET Core MVC
